This workshop is intended for women (and men who support their power) who are currently ages 30 through 75 and all those women who believed their time of power had passed them by.

Part One will focus on the Invisible Systems that exist in the Universe and will include an in-depth seminar on the deeper meaning of ancient sciences that includes color, sounds, astrological energy packages, life between and after death, and more.

Part Two will focus on The Rise in Power of Women, particularly those of middle-age. Participants will gain an understanding on how to prepare for the new phase of societal power and the importance of 2024. Every 20 years brings about a major shift in Feng Shui energies that has powerful influences upon people and planetary trends. Deeper aspects of these 20-year cycles are described in ancient teachings, and in the I Ching, also called the Book of Changes. In reality, these shifts in life force commence and can be felt during the 20 years prior to reaching their most concentrated form—a period of preparation. In a few short years, we will enter Period 9, which is represented by the “middle daughter” and middle-aged women. Energies will shift to the feminine, and middle-aged women will be boosted into power. Gail will guide us through the effects of these invisible systems and how they impact the enormous rise in the power of women from 2024 to 2044.
